

ROAD CLOSURES DUE TO FLOODING

Fort Benning continues to feel the impact of the heavy rains over the past week. Four main roads and one bridge are closed due to water damage, and detour routes have been established. Drivers are advised to use extra caution and to stay away from affected areas. Portions of four main roads include 10th Division Road, Sightseeing Road, Sunshine Road and Way Street. Laundry Bridge along Sunshine Road is also closed.

A proportion of 10th Division Road between Edwards Street and Sigerfoos Road is closed to all traffic, to include vehicles, cyclists, runners and walkers.

Because of the closure of Sightseeing Road, all traffic using the Eddy Bridge Access Control Point to Alabama must use the designated detours that include Dixie Road to Jecelin Road to 82nd Airborne Division Road or Indianhead Road to Bradshaw Road to 82nd Airborne Division Road around the back of the airfield.

All units and personnel are restricted from using 82nd Airborne Division, Bradshaw and Indianhead roads for Physical Readiness Training or foot marches until further notice.

HUNTERS: Check with DFMWR Tele-track to see which areas are open and have passable roads.

Bypassing temporary road blocks and barriers is unsafe and illegal.

Because of flooding, the river and other waterways are hazardous for boating.

Report unmarked damaged roads to the MP Desk 706-545-5224.
